

MoN8

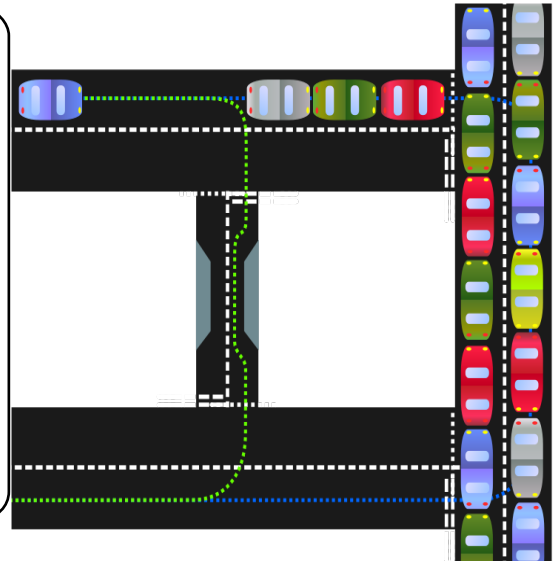

The Eighth Mathematics of Networks Meeting

18th September 2009, Cambridge University
Deadline for abstracts: 26th June 2009

This interdisciplinary series of meetings allows networking researchers from many backgrounds to meet and exchange ideas in an informal atmosphere. Previous meetings have had presentations from topics including biology, road transport, urban planning and telecommunications networks as well as applied mathematics.

Slides and abstracts from previous talks can be found at the website.

The meeting is completely free but registration via email beforehand is compulsory.

Invitation to speak

We invite potential speakers to submit a title and short abstract describing their talk (deadline 26th June 2009). Talks may be on any topic about networks but should be of general interest to the community of networks researchers. Email titles and abstracts to the addresses below.

Organisers

Keith Briggs (keith.briggs@bt.com)

Richard Clegg (richard@richardclegg.org)
