

MoN10

The Tenth Mathematics of Networks Meeting

Loughborough University, 16th September 2011
Deadline for abstracts: 15th July 2011

This interdisciplinary series of meetings allows networking researchers from many backgrounds to meet and exchange ideas in an informal atmosphere. Previous meetings have had presentations from topics including biology, road transport, urban planning and telecommunications networks as well as applied mathematics. The meeting is completely free but registration via email beforehand is compulsory. The theme is "Modelling Network Traffic and Internet Architecture" but presentations on any topic with a mathematical treatment of the study of networks are welcome. This meeting is sponsored by Loughborough University, Computer Science Department.

Invitation to speak

MoN is a great opportunity to present your ideas to a wide audience. Attendance in previous years has been around fifty. Please email abstracts to the addresses below by 15th July 2011. Abstracts on the meeting theme of "Modelling Network Traffic and Internet Architecture" will be given priority but all abstracts on mathematics of networks are welcome.

Organisers

Keith Briggs (keith.briggs@bt.com)
Richard Clegg (richard@richardclegg.org)
Iain Phillips (I.W.Phillips@lboro.ac.uk)
